## New Superyacht Builder Launched in Thailand – Ruea

Published: 27/06/2010 17:18:00

Keywords: Architecture and Interior Design | Travel | Yachts and Boats

By William Stolerman

Yacht Solutions has created a new division called Ruea Yachts that will design and construct superyachts in Thailand.

Gareth Twist of Yacht Solutions commented: "We are thrilled to add a superyacht new –construction division to our operations and we believe our track record and expertise will attract business from the region and around the world where there is a strong appetite for superbly designed, crafted and competitively priced superyachts."

Producing luxury vessels up to 85 meters, their aim is to capture the upswing of Asian demand for high-end yachting. The flagship design of the Ruea Yachts division will be the Ruea 60m (pictured) – a steel hull and aluminium superstructure vessel with a twin screw diesel engine. The boat will be capable of reaching 16 knots and boast an expected range of 4,900nm at a pace of 12 knots.

Yacht Solutions was originally founded in 2001 with an original focus on small yacht management and projects in Thailand. The contrast between the scale of past and present ambitions makes the launch of Ruea Yachts all the more significant and provides a clear illustration of the growth of the local yachting industry.

The group will use shipyards in Phuket and Bangkok.
